We Deal with the BEST Technologies from

Since 1964, we have been in the industries as we started with a small-scale factory at Jamnagar in Gujarat state of India. We have been in the manufacturing line since all these years and we still are. But the difference between today and the time we started has been a time of great achievements by our firm.

With an objective of looking for new opportunities, we started a trading unit PARAS MACHINERY STORES in 1995, which is a leading multi-brand industrial tools and instruments dealership and distributorship store.

Quality products with least prices, computerized system, large storage space for goods, air-conditioned showroom makes us one of the Biggest Machinery Stores In Gujarat.

We have gained a lot respect and achievement in the market as a trading unit all over Gujarat. In order to expand our trade, we started a new branch -

PARAS TOOLS AND EQUIPMENT

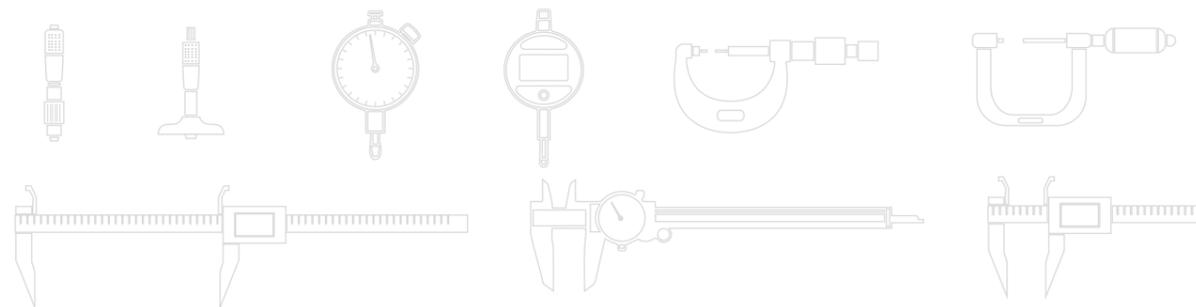

as a Multi Brand Wholesaler of Industrial Tools and Instruments in Rajkot City of Gujarat State.

We supply all engineering goods and instruments in all over India, Special Economic Zone (SEZ) and registered as a Leading Trader in Government e-marketplace (GeM).
