

# About Us

**Precision meets innovation** is a fitting representation of our commitment to excellence. We are a dedicated team of engineers with 40+ years of experience in precision spring manufacturing. Our advanced technology and commitment to quality make us a trusted partner across industries.

## Why Choose Us?

- ✓ Advanced CNC technology for high precision manufacturing
- ✓ Customization for diverse industrial needs
- ✓ Stringent quality control measures
- ✓ In-house quality testing lab
- ✓ Reliable and innovative
- ✓ ISO 9001:2015 certified

# Our Products

## Extension Spring

- German hooks
- English loops
- Custom shapes

## Compression Spring

- Cylindrical
- Conical
- Double conical

## Wire Forms

- Complex shapes with multiple bends

## Torsion Spring

- Single & double torsion
- Multiple bends

## EV Components

- Inductor coils, copper hairpins, busbars

# Our Capabilities

- State-of-the-art CNC machines
- Heat treatment & precision grinding
- Automated quality control
- Custom spring design solutions
- 450 tonnes of raw material processed annually
- Capacity to manufacture upto 500 million springs annually

## Excellence in Every Coil

We focus on **technological innovation**, **skilled craftsmanship**, and **rigorous quality assurance**.

Partner with us for high-performance, durable springs tailored to your needs.
