SURFACES.

1200x1800MM

Resistant to Staining

Resistente a las manchas /
Résistant aux taches

Impact Resistant

Resistente al impacto /
Résistant aux chocs

High MOR

Alta MOR /
MOR élevé

Thermal shock Resistant

Resistente al choque térmico /
Résistant aux chocs thermiques

Acid Resistant

Resistente al ácido /
Résistant aux acides

Easy to Clean

Fácil de limpiar /
Facile à nettoyer

Frost Resistant

Resistente a las heladas /
Résistant au gel

EGLOSS

HIGH GLOSS

1200X1800MM

Marble is past and present together: marble effect tiles that sum up the purity and beauty of this natural material with the characteristics of modernity and practicality of vitrified. This finish is suitable for private space, commercials as well big projects. This finish offers wide range of colours, shades and designs.

CARVING

1200X1800MM

Explore the collections intended for lovers of neutral colours and sparkling style. Creative experiments with this finish inspire a collection with impressive technical properties, that investigates the bond between matter and colour. Recently developed new variants, and an assortment of colors that explore elegance and modernism at same time.

FEEL

BABY & SKIN

1200X1800MM

Explore an inimitable solution: FEEL series . Exquisite floorings and walls, suitable for locations of all kinds. The timeless beauty of marbles inspires high-technology slabs in which all the veining and shade variations of the finest, rarest stones live again, with greater clarity and sustainability than the originals. The gleaming, vibrant colours alongside interpretations of the most classical marbles are the , the result of original contemporary reworkings

STONIC

DIGI MATT

1200X1800MM

Soft shades on the surface, 5 colours and a soft, irregular pattern with a sophisticated style: Stonic Concrete Look evokes the expressive power of concrete in an elegant interpretation. The concrete look acquires character and versatility, lending itself to the most varied style and design requirements. Elegance, a slightly daring approach to colour and outstanding performances for residential and light commercial locations.

SLAB CARE AND MAINTENANCE

These are the so-called final cleaning operations: this is the most important step, as it influences the results of the subsequent use of the product. Its purpose is to remove any trace or residue of foreign matter from the surface of the slabs. If you have used a cement-based sealant during installation, once the grout has dried, recommends carrying out the following operations:

- Remove any coarse dirt using a vacuum cleaner;
- Wet the floor with clean water in order to soak and protect the joints against the corrosive action of the detergent;
- Clean using a suitable acid detergent, which can be applied by hand (with a clean cloth) or with a machine (a single-brush machine with medium, non-abrasive bristles or a high-pressure water cleaner);
- Soak up the cleaning solution with a clean cloth or a suitable vacuum cleaner;
- Thoroughly rinse surfaces with clean, warm water to neutralise the action of the detergent;
- Remove any build-up by scraping it off;
- If needed, clean the surface again with the single-brush machine, using a diluted neutral or alkaline detergent, then rinse using clean warm water and dry.
- If an epoxy sealant has been used during installation of the product, given the chemical nature of such product, any remaining residue on the porcelain tile's surface should be removed before the grout has hardened completely and carefully follow the instructions supplied by the manufacturer.

Technical Specification

CHARACTERISTICS	STANDARD AS PER ISO-13006/En14411 GROUP	VALUES	TEST METHOD
REGULATORY PROPERTIES			
Deviation in Lenth & Width	0.50%	0.20%	ISO - 10545-2
