A Seamless Sensations 

# PIGMENTO

A Seamless Sensations 

## Tactile beauty traced out by colors

Matt&Deep is an exclusive production technology applied in processing the mixes that form our porcelain stoneware.

It makes the surface extremely matt, while enhancing the three-dimensional appearance of graphic motifs and structures.

Overlays of selected materials and pigments with very low gloss levels blend deep in the ceramic substrate, providing ever-varying shading effects that make the interpretation of natural materials perfectly real.

Not only is earth the oldest building material in the world, it was also the first pigment used by man to add colour both to himself and to his surrounding environment. From this experience an exciting new use originated, which upheld the traditions of Italy and led to the creation of a selection of clay mixtures with high impact colour and dynamic textures. With this collection, our aim was to enhance the ancestral origins of earth as a material. By combining the patterns and textures of earth with pure pigments, the material takes on a starring role, transformed into a new, intense, and ever-changing tiling option.

## ADVANTAGE & FEATURES

Nature, technology, science and design. Top quality ceramic surfaces are compact and impermeable, because they're made from pure minerals pressed and sintered at more than 1200°C. The best choice, for durability, safety, hygiene and beauty.

### Versatile Size

Available in the grand size, the collection presents you with a perfect tiling solution to create seamless interiors.

### Safe & Secure

Non-porous, hygienic, stain and scratch protected, the tiles from this collection are also ice and thermal shock-resistant.

### Design Varieties

Available across a spectrum of patterns, the collection offers variety for all kinds of spaces and preferences.

### More Sustainable

The collection is made from exceptionally durable and recyclable material, giving it an edge with its ecological and ecofriendliness.
