# SHREE PARSHVANATH ENTERPRISE

*Having existed and successfully recognized in the industry since 1985 Shree Parshvanath Enterprise has gained erudite experience of more than 30 years.*

*From all these years of wisdom and understanding on the field the company has procured appropriate opportunities to distribute steel and hardware to a large base of customers with a wide variety of operational functions and services. This has helped us to better understand our abilities and work on improving them leading to final services. We understand the needs of our customers by seeking to adapt ourselves with the changing requirements.*

## **Introduction :-**

Founded by Mr. Harish Prabhudas Doshi and now led by his son Mr. Ronak Doshi, SPE is a front foot runner in manufacturing & Supplying world class genuine fasteners for more than 30 years. We are a precision Nut & Bolt manufacturer company, are 100% customer oriented unit and have cutting edge technology for manufacturing various kinds of **M.S., S.S., High Tensile, Brass, Copper, Aluminum Nuts, Bolts, Screws, Studs, Washers, Rivets & Other Components & in various types of passivation's including Hot Dip Galvanized & PTFE Coating.**

The company is achieving new heights under the dynamic leadership of experienced and qualified engineers. This is only because of their understanding and in depth experience in the technology of fasteners. We have become synonyms to perfection in the market. **DIN, IS, JIS, ANSI, ASTM** and numerous other international quality standards are strictly followed for production of flawless range of fasteners.

We also develop fasteners as per customers requirements.

## **Our Infrastructure :-**

We have a team of highly talented engineers, quality controllers, administration staff, technocrats and allied workers. With their dedication and in depth knowledge of the industry, they have made valuable contribution in making our company a name that is famous in market.

## **Our Quality Assurance :-**

Quality has always been our forte and to achieve this, we have established strict quality policies, which are followed within the organizational hierarchy.

The finalized products are tested on following parameters.

- Hardness
  - Tensile Strength
  - Elongation & Yield Strength
  - Head Soundness & Thread quality as per Gauges.
-

# V - Belts

**Timings Belts**

**Conveyor Belts**

## V Belts

V belts are widely used on high speed and high torque drives on light, heavy industrial and automotive machines.

# HARDWARE ITEMS

**Industrial Couplings**

**Industrial Pulleys**

**Industrial Chains**

# HARDWARE ITEMS

**Industrial Sprockets**

**Anti Vibration Mounting**

**Industrial Gears**

# Pneumatic Items

# PIPE FITTINGS MS, SS & GI

## **Why Us ?**

We are soaring high among our competitors owing to the following factors:-

- Vast Industrial Experience.
- Transparent & Fair Deals.
- Faster Order processing and replacement.
- Competitive Rates.
- Timely Delivery of Goods.

## **Key Features :-**

- International Quality Standards.
- Superior Raw Materials.
- Authenticity.
- Dedicated Personnel.
- Economical Working Process.
- Competitive Price.
